

**The following services will be available at the Shrewsbury Public Library on Sundays from 1:00-4:30 PM, starting on October 4th:**

- Patrons can place holds on books, audiobooks, CDs, video games, or DVDs through the C/W MARS system. Or you can call 508-841-8609 x 3 to request a librarian to help you. Up to 10 holds can be placed on one library card. Holds will be arranged in alphabetical order by patrons' last names, and can be checked out using the self-checkout machines. The west entrance of the library will be open and requested items will be on tables in the hallway. Patrons will then follow directional signs to exit the building from the main north entrance.
- **After you get an email notification that your hold is ready for pickup, please wait 72 hours before you come in to pick up your hold.**
  - **Patrons must bring the library card that placed the hold.**
  - Due to safety concerns for staff and patrons, this will be a no-contact transaction.
  - Patrons are required to wear a mask and maintain a 6' distance from others while in the library.
- Borrowed items can be returned in black bins outside the library from 1:00-4:30 PM.
- Reservation-based computer sessions are available to patrons with a C/W MARS library card in good standing. In order to use a computer, library card holders must call the Shrewsbury Public Library (508-841-8609 x3) to reserve a time slot. Reservations are limited to one 60-minute session per day, no exceptions. Due to safety precautions, users are required to come alone, and library staff will only be able to provide limited, remote support. Patrons are requested to come through the west entrance.
- There are also selections of new materials to browse and check out.
